

Resort Village of Alice Beach

*Respectful of our environment, our
neighbours and our community.*

Newsletter Date: July 2022

Mayor: Ronald Ziegler
Deputy Mayor: Terry Gilroy
Councillor: Ryan Mengel

COMPOST PILE- The leaves and grass clippings will be spread over the fireguard regularly. There will actually be no permanent composting allowed to remain at the location from one year to the next. Please, no plastic bags, containers, branches or garbage with your grass and leaves. This is a problem for the spreading and produces garbage within our community.

ROADS- The repair of our streets will be suspended for this year . Without permanent surfacing this is an ongoing project. Council is currently researching resurfacing and dust control that may last longer than our current procedure.

GARBAGE DISPOSAL CONTAINERS- These containers are for household garbage only. No appliances, construction materials , mattresses, car parts, tires, tree branches PLEASE. Card board boxes are to be collapsed and flattened before disposing.

ALICE BEACH REC COMMITTEE- The committee is looking for volunteers to join their committee as two people are stepping down. Anyone who has any ideas to improve & maintain the look of the recreational area of the beach and it doesn't take a lot of your time. If you have a spare couple hours a month (or less) to give to your community please contact:
Laurie Kotylak @ 306-539-9250, Susan Measner @ 306-535-2805.

EMRGENCY RESPONSE PROTOCOLS- The protocol for all emergencies is call 911. That includes fires, health issues or any other emergency. The 911 unit then notifies the proper response team for the situation.

AED- The AED unit has been installed at the Glen Church Community Centre. There is a Notice posted to the website concerning a clinic for anyone interested in taking a short course on the operations and proper use.

PETS- All pets are to be leashed when outside of private property. There have been several complaints of dogs running unleashed in the swim area and owners not picking up after their pet . Continued neglect of the privilege of taking your dog to the beach will result in all pets being banned from the swim area. Please pick up after your pet.

Wildlife- There is a provincial law banning the feeding of wildlife within the boundaries of a town/village/etc. RVAB also has a bylaw banning feeding wildlife, with severe financial penalties. Council intends to enforce this bylaw in an attempt to reduce wildlife damage to property.

Fire protection- Every home owner should be in possession of a couple of fire extinguishers in the event of a fire starting on your property from camp fires/Bar B Q's, etc. The Holdfast Volunteer Fire Dept. is at least 20-30 minutes away and are effective in only really containing further spread and damage to other properties.

DISPOSAL OF EXCAVATION MATERIAL- Excavation materials are **not allowed** to be dumped within the Resort Village.

Working together for all to enjoy!

RVAB Council
