Important Notice

**During the late afternoon or evening of
yesterday, Aug.24,2026, the fire pit started
on fire.**

There was evidence of ashes being dumped into the pit
which we believe ignited the pit overnight.

This could have been a very serious outcome, and we find
it disturbing that someone has been so careless ,or
intentionally, wanted to start a burn.

If anyone has any information regarding this situation, or
noticed anyone dumping at the pit in the late afternoon or
evening, please report this to council or our administrator.
